SKILLS

- ☆ Absolute mastery of Adobe Photoshop, Illustrator, Figma
- ☆ Drawing illustrations of various subjects and styles
- ☆ Developing logos and branding of companies
- ☆ UI/UX design. developing design concepts for corporate websites, online stores and landing pages, creating adaptive versions for various platforms
- ☆ Creating prototypes.
- ☆ Developing interfaces for mobile applications, developing interface design elements and graphical components
- ☆ Designing and preparing materials for printing and advertising, packaging design, labels, printing, stickers and badges, image processing and retouching.
- ☆ Creation of infographics
- ☆ Presentations and design of profiles in social networks

I have art education and I am able to work in different directions, from UI/UX design to artistic illustration.

I am able to work on several projects at the same time and quickly switch from one task to another. I am highly diligent and responsible solving tasks, and I have always managed to meet the deadline.

I am a stress-resistant, well-balanced, sociable and punctual person. I don't rule criticism. A fresh look can be quite helpful.
